Why is Japanese people so damn racist against the black man?

I thought it was only whites who is racist, but I come over here to get away from all that shit and teach some English, an I'm still getting hassled by the pigs an shit like that every day.

Yesterday my students gave me my goin away presents an one said "back to Africa family" with a racist ass drawing of me with an arrow to a bunch of monkeys an shit. They know I'm from Chicago.

They ain't got no slavery. They ain't got no Jim Crow. They ain't got no white privilege. Why they be racist?

I'm white with blonde hair. I went to Hong Kong once for about 2 weeks. Plenty of other westerns and lots of people spoke English but chinks would stare me down hard core. On the train they would move away from me. Everytime I walked in anywhere all the chinks would stop and stare. One bar tender got all pissy with me cause I left him a tip! He said " what, you think I need your \$, your done get out". It was actual racism. My belief is, chinks are racist and they don't care.

Racist ass cracka's like this one [>>207441283](#)

Are why Asians are racist. Most of the post here completely neglect the history of asia. First off they like lighter skinned people, because Asians that are dark we're the poorer people working outdoors.

Then hundreds of years of either trying to keep white people out or having them subjugate you with opium.

Lets not forget that the USA nuked Japan AND then basically took over their entire outward military force. And used Japan as one big military base to project force into Asia. China had similar relations with Russia(And colonial powers before that).

That racism and self hate seeped into asian culture. They hate themselves and anything non white. Just look at Anime and how much plastic surgery occurs in Korea. Or skin bleaching in SEA.

>I thought it was only white people

Hello, friend.

Welcome to the real world.

You see, in the real world, Whites are the least racist people on the planet. Whites, more than any other race, are willing to give the benefit of the doubt to individuals of whatever race, as long as they're willing to take responsibility for their own actions and their own behavior and behave in a manner that is productive, and not destructive to civil society. See, Whites found the way to be successful, and it's a method that works for anybody who tries it, there's nothing inherently "white" about it, though people who do it are often accused of "acting white", which is sad because the reality is that if you want to succeed, you should imitate successful people. Whites generally don't believe in white supremacy, they believe in individual achievement. The only people who genuinely believe in white supremacy are the same people who believe in white privilege. (Don't use /pol/ as your barometer, /pol/ is satire, a place where no words or ideas are off limits, not some mirror of the real world where people actually have to get along and see the same people regularly.)

America is, with the possible exception of Canada, the least racist country on the planet. Go on, travel the world some more and you will learn that for all of our faults, there is no better place for racial peace and harmony than here. You will never have it so good as you do in America.

Or at least, it was before 2012. That's when anti-white sentiment started growing here like kudzu.

If anti-muslim "Islamophobia" is enough to drive muslims to terror attacks, and "relentless white

racism all the time everywhere" is enough to drive blacks to violence, how much more loud, virulent and violent anti-white rhetoric do you think it will take before whites do something everybody else will regret?

Because racism is natural. You get less of it in the west rather than more, because the black man has more power there, through affirmative action and the like. You only have that power because jews give it to you, so you can bring down the white man. Japs don't give a fuck, they see you as you are. Black people are repellent to other races.

 "THANKS PEPE"

"I think there is a misperception of me. I've been accused of this, that, but I know I have not put forward any of the material. And I think you are going to be part of the thrust of that transformation, which must take place. Europe is not going to be the miserable accident they once were in the last century. You are going to be at the center of that. It's a huge transformation for Europe to do this. They are now going into a different world and there will be a renaissance because of your training."

 Because all that shit is genuinely funny without all the racist labeling. Black people look like monkeys kinda, or at least the closest thing the human race has got. Plus when the most ghetto of ghetto get together and start fighting or something, its resembles chimp and gorilla behavior with all the yelling and screaming. Seriously, listen when a black woman screams, sounds just like a chimp...

 Dude when I was in that school there were only 2 buildings: Primary School and Highschool.  
 Now there are four fucking schools and one of them is legit only for the last 2 grades of primary. I  
 heard that there's like a 1.5 year waiting line to enroll your kid there because the french  
 population went from 10 000 to 25 000 in ~15 years. And unlike 15 years ago it's not the normal  
 frenchies moving to HK, it's the upper class liberal elites so the teens are more likely to be  
 entitled and douchy.
